## Patient Comments

45 responses (NHS - 39 Private - 6)

*Good treatment, kind staff, would recommend getting braces if offered them  
Explained treatment well and what the outcomes would be if the brace was neglected. As a parent I appreciated the dental hygienist telling my son off about the condition his teeth were in as me telling him didn't work.*

*The brace was uncomfortable at first but once you have got used to it you forgot that it was there. Also braces are quite common as a lot of my friends wear them. I love my new smile. Well worth wearing the brace*

*Treatment very well explained friendly service which puts young people at ease and it's great that you are followed up after the brace is removed. Excellent result well worth wearing the brace which is surprisingly easy to adapt too.*
