Explaining everything - at first I was really scared about getting braces but it didn't hurt at all. When I got them off my friends said I looked really different because the braces brought my fang teeth down and they really helped straighten my teeth

Always a nice welcome at reception and always a good chat with Guy - I no longer feel self conscious when I smile, even though people probably didn't notice my wonky tooth before, I has made a big difference to me. Thank you very much.

I wanted braces since I was 16 and am now 34 wish I had done it sooner treatment was brilliant and outcome fantastic.

Your explanation of the braces an was going to happen was easy to understand - my teeth used to be very crooked and some teeth were crossed and I really hated my teeth at one point. I got my braces and soon saw a change an soon I forgot I even had braces because they felt comfy and didn't hurt my gums - I now have my braces off and I am now very happy and more confident with my smile.

Great service at reception, staff are very friendly. Updated about treatments - appointment reminders day before (closer to time) - at first I was scared about getting my braces especially because my friends were getting there's taken off but seeing the results they got I knew I had to get them done. I am so happy with the results and am getting compliments already
